

X1p

DMR handheld radio

Elegant design

The X1p from Hytera combines compact design with extensive DMR functionality, integrated in a chassis that is only 23 mm thick. With its small dimensions, this handheld radio is perfectly suited for concealed carry. Despite its compact design, the X1p has a full keypad and four programmable keys.

Dustproof and waterproof

The X1p is reliable even in harsh operating conditions. It is waterproof and dustproof in accordance with degree of protection IP67, which means it is capable of withstanding a water depth of one meter for at least half an hour.

Different digital and analog operating modes

The X1p was developed in compliance with the ETSI Digital Mobile Radio (DMR) standard. It supports both conventional DMR operation (DMR Tier II), DMR trunking (DMR Tier III) and operation in simulcast. The X1p can also be operated in analog mode. Along with conventional analog radio it also supports analog trunking as per MPT 1327.
