

Ultralight Analogue Business Two-way Radio **AP325**

STAY CONNECTED. STAY PRODUCTIVE.

DESIGNED FOR YOUR BUSINESS

- Outstanding sound through the design of a large acoustic cavity
- Easy to carry thanks to the integration of a compact body and an extremely compact antenna
- Longer communication distance by brand-new RF solution
- Charge, program and update with just one Type-C USB port

STAY CONNECTED. STAY PRODUCTIVE.

Easy to carry

With a slim form factor and a 4.5cm ultra-stubby antenna, the users can stand, sit or move freely even when they wear the AP325 on the waist.

Loud and clear audio

The 3W speaker outputs up to 90dB audio. With the professional noise cancellation algorithm adopted, the AP325 delivers crystal-clear audio in any noisy environments.

One port fits all

Users can program, upgrade and charge the AP325 through the same Type-C USB port on the bottom.

Voice Announcement

The AP325 audibly conveys information such as channel names, zones or battery level, so the users can immediately know the radio status.

Be informed throughout the workplace

Thanks to the 3W TX power and up to 0.18μV receiving sensitivity, the AP325 enables the users to communicate with each other wherever they are in the workspace.

Fast charging on the go

The built-in battery can be fully charged in just 2.5 hours, and a one-hour charge provides 8 hours of communication.

VOX

Using the Voice Operated Transmit (VOX) feature, the users can make a hands-free call without pressing and holding the PTT key.
